

PRESS RELEASE

On Sunday, January 28, 2007 at approximately 4:14 pm, Muskego Police received a telephone call reporting a vehicle had broken through the ice and was currently submerged on Big Muskego Lake. Prior to police and rescue personnel arrival, dispatch was informed that the driver, and lone occupant of the vehicle, had escaped unharmed.

Upon arrival, police located a CBS News Truck submerged in a channel to Big Muskego Lake. The news truck was located approximately 150 yards off of the boat launch. According to the driver, she was at Big Muskego Lake setting up for a news story. She proceeded to drive off of the boat launch parking lot and onto the channel, mistaking the channel for a road.

Removal efforts of the vehicle are currently underway.

Sgt. John P. Mesich
City of Muskego Police Department
